

Put your patients first!

Learn easy low stress handling techniques to decrease patient aggression and increase revenue

- Tired of dogs that struggle, growl and resist exams?
- Staff drawing straws to see who has to get Kujo Kitty out of the carrier?
- Unsure how to incorporate low stress handling into your practice?

By putting your patients first, pets will be dragging clients in the door (not out)

This seminar is for the entire staff. You will learn easy, practical techniques that you can start using immediately!

easy to learn towel techniques
